Case No. 2007-00278

Question No. 1

Witness: Mike Dotson

Q-1. Please provide a copy of the Weir International, Inc. review/report referenced in KU's Response to Information Requested in Appendix A of the Commission's Order dated August 3, 2007, Question No. 10.

A-1. Consol claim on KUF03904

Per review of the claim, Consol had based their cost on a mine that was not an approved source of coal under the Agreement. Per letter dated September 14, 2007, KU notified Consol that it was unable to verify that the supply of coal was from an approved source, was immediately suspending payment on the claim, and reserved the right to recover any overpayments that may have been made subject to Consol providing a claim based on the coal that was actually sourced under our contract.

Per letter dated September 26, 2007 Consol notified KU that the coal was being supplied by contractor operated mines under our contract and that Consol was unable to determine the cost impact, therefore, Consol retracted its claim and refunded all monies paid to date.

Consol claim on KUF05039
